

The Nag Hammadi Scriptures and Rodin's Glyph

- Jayson S. Warnock -

July – October 2022

Introduction: The Nag Hammadi Scriptures is a collection of Christian “Gnostic” writings from 100-300 C.E. focusing on the ideas of theodicy, or “Where did evil come from?” The Order of Creation, and the stages of God’s decent into matter. How does perfect spirit energy change into corruptible, perishable matter. It tries to pin-point the origin of evil.

Rodin’s Glyph – A mathematical way of seeing a theory of everything? Numerical, mathematical, biological, and energetic!

Summary: Is there a parallel between the two ideas? Including energy (spirit/male (+)) and matter (evil/female (-)), mathematics, physics, and biological cell division?

- (pg. 792) “A Neopythagorean, monistic theory, that attempts to derive everything, even materiality, from a single first principle.”
- (pg. 794) “...the separation of spirit from matter is the main motif of the myth of the fall of Sophia,”

Definition Primer:

- Spirit = Energy eternal – God is the ultimate source – divine
- Soul = Personality. Persona. Personal energy that we (matter) share with God.
- Body = Material. Biological matter. Non-eternal / corruptible.
- Rest = Peace or death / afterlife
- Aeon = Time period, generation, or a spiritual being / consciousness

The Nag Hammadi Scriptures and Rodin's Glyph

- Archons = Rulers
- Eschatology = Judgment / what the afterlife is like
- Soteriology = the belief in doctrines of salvation.

Book Title: **"The Nag Hammadi Scriptures" – The International Edition**

- Originally written in Greek, translated to Coptic, a Roman/Egyptian language.
- Written between 100 – 300 C.E.
- Collected locally by the Pachomian monastic order. Discovered in 1922, 1945, and 1977.
- 31 additions found intact. 52 found, 6 duplicates (extra copies) and 106 fragments.
- Early Christian / Neo-Plutonic / Hermetic / Sethian / Valentinian schools of thought.
- The collection is curated by Hans-Martin Schenke
- 1922 discovered the Berlin Gnostic Codex 8502

Pg. 776 – Epilogue: Schools of Thought in the Nag Hammadi scriptures

- Avoid the term "Gnosticism"
- Manda – Mandaic = "knowledge"

A summary of the Nag Hammadi Scriptures four (4) gnostic schools:

- Thomas Christianity
- The Sethian School of Gnostic Thought
- The Valentinian School of Gnostic Thought
- Hermetic Religion

Pg. 779 – Thomas Christianity (250 A.D.)

Started in Syria then moved to Egypt where it inspired the Valentinian School of Gnostic Thought.

- “twin” in Greek = Didymos – Judas Thomas / Didymos Judas Thomas / Brother James, Jesus’s brother, so also a brother of Jesus. Twin brother of Jesus, physically
- The patron saint of Syrian Christianity
“Books of Thomas”, “Acts of Thomas”, (goes to India) and the “Gospel of Thomas”.

Pg. 780 - “Doubting Thomas” Jesus’s spiritual counterpart. Jesus as Thomas’s heavenly alter ego.
The kingdom is within you. Plato’s influence = “Know Yourself”

Pg. 783 – Mani and Manichaeism - a dualistic religious system with Christian, Gnostic, and pagan elements, founded in Persia in the 3rd century by Manes (c. 216– c. 276). The system was based on a supposed primeval conflict between light and darkness. It spread widely in the Roman Empire and in Asia and survived in eastern Turkestan (Xinjiang) until the 13th century.

Pg. 784 – The Sethian School of Gnostic Thought

The third son of Adam was perfect, like Jesus, and called Seth.

Pg. 785-86 - Trinity = Father (Invisible Spirit), Mother (Barbelo), and Child (Autogenes)

- Four Luminaries (Marmozel, Oroiael, Daveithai and Eleleth who is responsible for creating Sophia. Sophia produced the flawed material (matter) world and evil. Yaldabaoth, Sakla/Skalas or Samael who tried to destroy mankind with floods and fire. Archons suppress our knowledge of the divine spirit in us. Thwarted by Sophia saving interventions as the spiritual Eve = “Epinioia” a.k.a - Barbelo “First thought” “Protennoia” “Pronoia”
- Jewish based thought.
- God (invisible Spirit) – Barbelo (God’s self-knowledge) – Aeons (spirit creatures?) – Sophia – Yaldabaoth.
- Sophia redeems herself by giving Adam’s son Seth, perfection like Jesus.
- Baptism helps awaken humanity’s potential self-awareness of its essential divinity.
- Vertical and horizontal path to gnosis.

Pg. 790 – The Valentinian School of Gnostic Thought

produced the “Tripartite Tractate”

Pg. 791-92 – Spirit = energy / Aeon’s = spiritual entities, “members of the All” collectively called the “Pleroma” (Fullness) *(are they angles, heavenly council? Sethians saw Aeon’s as time periods?)

- The Father’s self-knowledge produces the Son, who is Mind.
An unfolding of the self-reflective, divine essence.
- The Aeon, Sophia splits in two. Because she tried to create without the Fathers participation, consent, Fullness.

The Nag Hammadi Scriptures and Rodin's Glyph

- Jayson S. Warnock -

- Half of Sophia stays in heaven (Spirit energy), the other half solidifies into matter. (Matter and Energy)
- Pleroma hears Sophia's repentance and produces a perfect Savior. The product of all the Aeon's
- Sophia's matter, soul, and spirit go into humans. The inner spirit needs to be awakened.
- Baptism to reunite with the Pleroma. "Bridal Chamber" "the restoration" = *apokatastasis*
Performing baptism as a ritual act makes Valentinism a religion. (pg. 792)
- Sophia lives with her spiritual children in the Ogdoad (Eight), or the Middle, located between the cosmos (the universe of matter and energy) and the Pleroma (Heaven).
- The Savior works with Sophia co-creating. They use the "Demiurge" as an unwitting tool. Demiurge tried to make humans and again produced a flawed creature, lacking spirit until Sophia placed spirit secretly, in Adam and his progeny.
- The Savior descends to Earth as Jesus.
- The Earth and the seven (7) planetary spheres above it are made from matter and (mind) with (mind) Archons ruling the spheres.

Pg. 792 – Sophia is acting as the Greek Prometheus or Jewish version of the Serpent in the garden giving knowledge to humans.

- Issues of divine oneness and plurality were reconciled by the theory of divine emanation and restoration.

Pg. 793 – Valentinism split in two (2) branches. Western or "Italian" branch and an Eastern branch.

- They dispute if Jesus came as a spiritual or psychical body (thought/mind) Church the Heavenly Seed of Sophia, or congregation of angles) that separated at his death. His material existence catalyzed the spiritual church on Earth for us to participate in. Jesus's redemption took place at his baptism.
- Western Valentinism thinks Jesus had a psychical (thought/mind) body. Jesus was nature itself and eternal. They see the Pleroma as thirty (30) Aeons, coupled in pairs called "syzygies"
- Eastern Valentinism thinks Jesus had a spiritual body and he sacrificed his material form. They follow the "Tripartite Tractate" that original Aeons were fractally nested in the Father, as in a womb. Primitive version of the Pleroma unfolding into existence.
- Some are born spiritual, and others learn. Some humans are **AUTOMATICLY** saved by virtue of their spiritual nature.

Pg. 794 – "...the separation of spirit from matter is the main motif of the myth of the fall of Sophia,..."

*(Sophia's story is important for being the first appearance of matter. And how the separation of matter from energy took place, and who was responsible.)

Pg. 795 – Hermetic Religion

- The least "gnostic" of the scriptures.
- Greeks equated Hermes (smart) with Egyptian god Thoth (hieroglyphics)
- Greek "Megas, megas, megistos" (abridged into "Trismegas" = "Thrice Great", while "Trismegistos" = "Thrice Greatest") equals Egyptian "Great, great, great".
- Hermes-Thoth (Great Ancestor), Hermes-Agathodemon (Dad), Hermes-Trismegistus (Son), Hermes-Tat (Grandson)
- Hermes-Trismegistus (Son) translated into Greek, and handed over the hieroglyphic writings, carved on steles, before the flood by Hermes-Thoth (Great Ancestor), to his son Hermes-Tat.
- Hermes-Trismegistus authored the original Egyptian writings that were copied into Greek in 100-300 C.E.. The topics of the writings include astrology, alchemy, magical recipes, and philosophical treatises.

Pg. 796 – Egypt is the mother of all cultures and has withstood previous world catastrophes.

- Hermetic, Egyptian writings came first. They sound like Greek and Jewish writings because the Greeks

The Nag Hammadi Scriptures and Rodin's Glyph

- Jayson S. Warnock -

and the Jews barrowed from this earlier Hermetic source.

- Ancient Egyptian Boof of Thoth – a Demotic teaching (not influenced by Greek Platonic thinking.)
- Hermeticism is a spiritual way, not a philosophical system.

Pg. 797 – Non-Gnostic Hermetic writings differ. They constitute the beginning of the quest for God. Those searching for the divine first have to become aware of his invisible presence through his invisible creatures.

- Devotees are led to the awareness that God is so far beyond what is perceptible, the world seems to be interposed as a screen between the human mind and the source of all beings.
- Included various syncretism systems.
- Hermeticism (first) leads to gnosis (later).

Pg. 798 – Hermes used magical words and vowels to command the heavenly spheres.

• “It would certainly be worthwhile...to compare the Hermetic and the Sethian paths of spirituality.”

*(Seven (7) reasons for evil in the world include

- 1- Jesus
- 2 - Sophia
- 3 – Demiurge
- 4 - Yaldabaoth
- 5 - Eve
- 6 – Saboth
- 7 – Elelith

*(The Nag Hammadi writings describe a dumbing down of humanity (Tower of Babel) to keep us a worker class.)

Creation of Energy and Matter in Rodin's Glyph Paralled with Gnostic Order of Creation

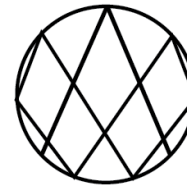

God

Spirit
Energy

Matter

Matter
and
Energy

God and Spirit are fundamentally present in Matter and Energy

Mathematical Nature of the Universe

From the particle nature of light, we consider light to travel in the form of small packets of energy or quanta of energy. These small packets are called photons. The photons are said to be chargeless and massless particles that travel at the speed of light. So, the rest mass of a photon is taken to be zero.

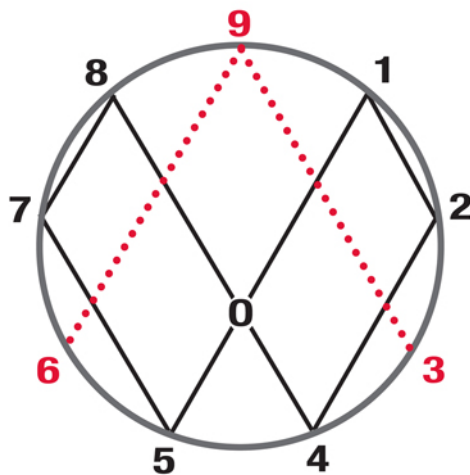

Marko Rodin's vortex math suggests the smallest quanta (aka "string") of energy is the product of the arrangement of numbers (information) 1-9.

Einstein's equation shows mass and energy are interchangeable.

Rodin's glyph is the same as looking at a photon in its pure energy form.

Information is now being thought as the 5th dimension!

Math is the way to understand the informational foundation for our physical universe.

Overview

Gnostic Theodicy blames Jesus, Sophia or her son Yaldabaoth for producing evil material into a perfect spirit energy world.

God = Infinite

Spirit / Energy = Infinite, cyclical

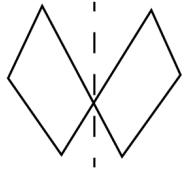

"Lazy 8" = Infinite, cyclical
Time / Geometry

+ Numbers / Information / Math =

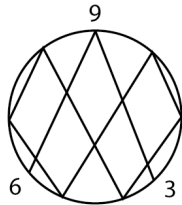

Above Energy is curved 

Below Matter is angular 

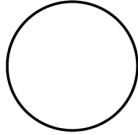

Matter = Infinite, cyclical, spiraling
~ Matter is structured by information/geometry
~ Six numbers create our material cosmos
1 - 2 - 4 - 5 - 7 - 8
~ Favors six sided hexagons and spirals

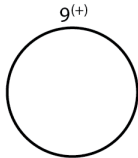

God + energy + matter
Biological life cycles (dying) are a fractal pattern of the (energy into matter process).
Includes re-birth/reincarnation

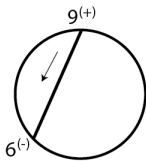

Overview

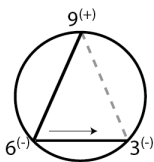

All / God - eternal

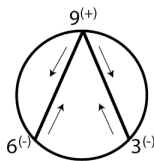

9 = God (+)
the (+) = Positive electrical charge

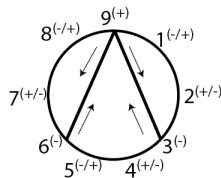

6 = Jesus (-) Eternal but not as powerful as God. A reflection/copy of God.
~ As different from God as 2-D is to 3-D.
~ Jesus is described as having an "arrogance" that is hard to imagine.
the (-) = Negative electrical charge

Jesus creates 3 (-) Holy Spirit as a reflection of God,
(but now a copy from a copy getting further away from God).
~ The Trinity = Geometry (3-dimensions)
God - Savior - Sophia
Father - Mother - Child
Mind - Voice - Word
~ Sophia = Female / Wisdom / Holy Spirit

The First Aeon
~ Time
~ First energy duality (male/female = BOTH negative charged)
~ Expansion and Contraction pump - Cyclical - Heart Beat
~ Physical Energy (union creates = zero point energy + entanglement)
~ Energetic Church (fractal geometry)

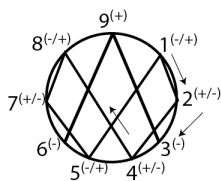

The Second Aeon
~ Numbers = Information / Math
~ Sophia or Yaldabaoth creates matter (shadows/phantoms)

Above

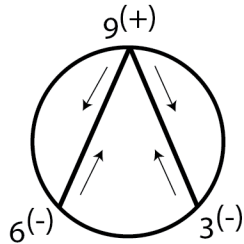

Below

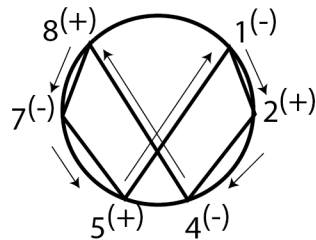

The Third Aeon
~ Material Cosmos
~ Biology (Plants, Animals and Humans)

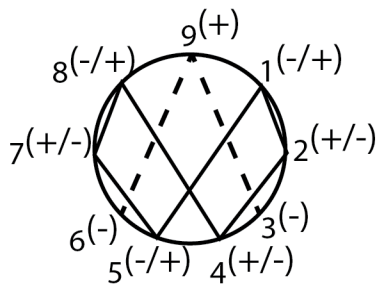

Rodin's Glyph - Two Separate / Layered, Current Patterns

Energy Circuit
Expands and Contracts

Material Circuit

"The Nag Hammadi Scriptures" – *The International Edition*

Edited by Marvin Meyer – 2007

Note: my own thoughts are stated and bracketed "*" amongst the text break down.

Pg. 8-9 – Is the *Gospel of Thomas* the "Q" source for the New Testament Gospels!?

- The Gospel of Thomas was written in the mid-first century – (58 C.E.) 25 years after Jesus' death.

Pg. 11 – The text is personally neutral. Gnostics try not to give proper names to God, Jesus. Instead, they say, Son of Man, Son of Humanity, or Great Invisible Spirit.

- Aeon = Time / an Eternal, heavenly realm / Spiritual creatures
- Archons = Rulers
- Hypostasis = "The nature of"

Pg. 15 - #1 – *The Prayer of Apostle Paul*

Pg. 19 - #2 – *The Secret Book of James*

Jesus's brother

Pg. 25 – Fullness vs. lacking. "...be filled with spirit (energy/good) but lack in reason, for reason is of the soul. It is soul." (Mind-matter/bad)

Pg. 27 – "Listen to the Word, understand knowledge, love life, and no one will persecute you and no one will oppose you other than yourselves."

Pg. 31 - #3 – *The Gospel of Truth*

Pg. 38 – We must go to God to receive his knowledge that is inscribed within us. Knowledge of God is what we need to make us perfect again.

Pg. 49 - #4 *The Treatise on Resurrection*

pg. 50 – Salvation while alive, not only after death.

Pg. 51 – The resurrection of our own souls will take effort., " ...the resurrection is not automatically given by virtue of one's innate spiritual nature."

- Easter Valentinism – Jesus is a pre-condition of salvation
- Western Valentinism – Jesus was natural / teacher who pointed the way
- "Soteriology" = the belief in doctrines of salvation.

Pg. 54 – Resurrection is truer than our illusion of the world.

Pg. 57 - #5 – *The Tripartite Tractate*

- Pt.1 = Father/Son/Pleroma (the Heavenly realm, God's Fullness / Holy Spirit / Energetic model for the Earthly material Church? Unfolds either by arithmetic / geometrical derivations, or embryonic)
- Pt.2 = Creation of Man / the Fall
- Pt.3 = The nature of the Cosmos

Pg. 58 – The Tripartite Tractate outline

1 = First principles: the Father, the Son, and the Church of Aeons.

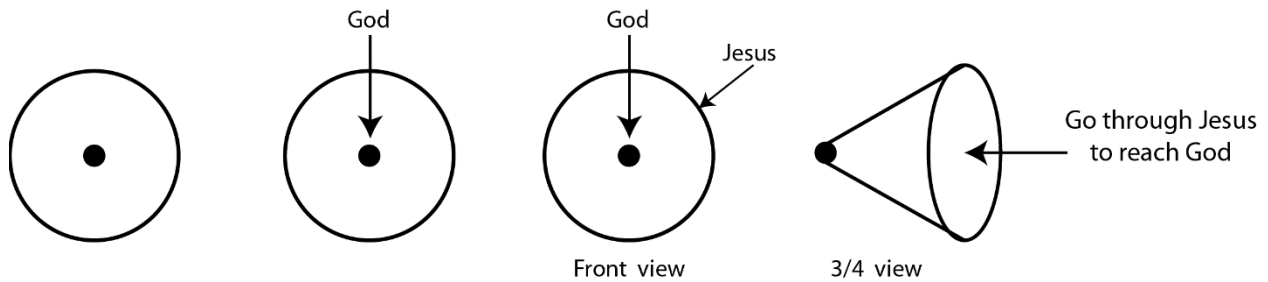

The Nag Hammadi Scriptures and Rodin's Glyph

- Jayson S. Warnock -

- 2 = The projection of the Aeons.
- 3 = The passion of the youngest Aeon and the origin of the material powers.
- 4 = The conversion of the Aeons-logos and the origin of the psychical (mind) powers.
- 5 = The mission of the Savior and the origin of the spiritual kind.
- 6 = The creation of the cosmos and the region of the Middle.
- 7 = The creation of humanity and the expulsion from paradise.
- 8 = The errors of humankind and the prophecies.
- 9 = The advent and work of the Savior
- 10 = The destiny of the three kinds of humans.

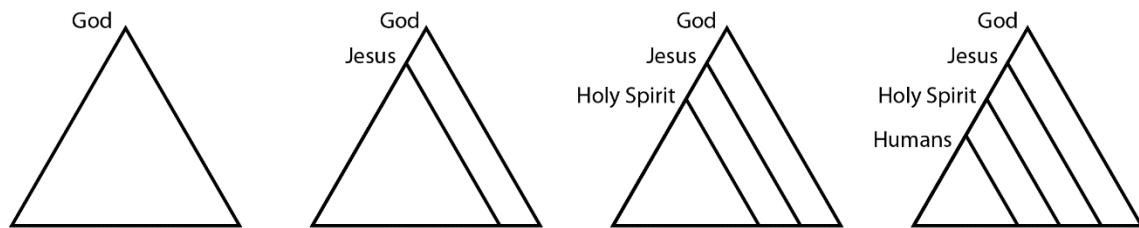

Pg. 59 – Creation-Causal-Link

Pg. 63 – Since God is incomprehensible then he is unknowable. Jesus helps make God knowable.

- *(All that come to God, go through Jesus.)
- *(God is an image of perfect love. When all others have turned on you, Jesus will be with you until you die, and after. Jesus provides a loving example to look to.)
- *(Passionate love can fade. Friendships fade. Pets/animals and plants die too soon.)
- *(Only God endures – Invest in God and your spiritual awareness of God.)

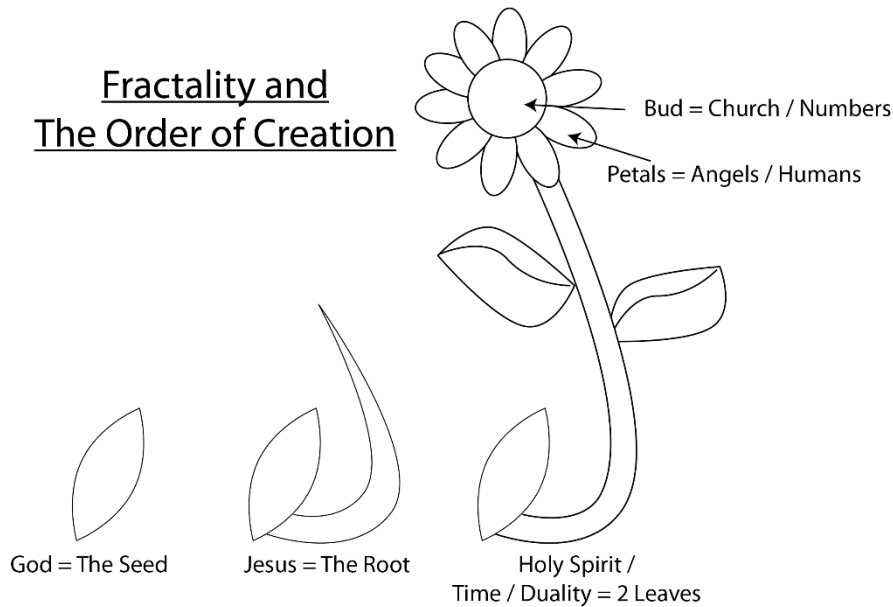

Pg. 65 – Fractal, without beginning or end. pg.11 = “Eternal realm” *(a circle/cycle?)

- ~ Fractality implies Geometry
- ~ Geometry is the shape of Numbers
- ~ Numbers are Information

Pg.72 – Aeon = Time

- God is like a Russian nesting doll.
- God is like nested units of time. *(Fractals?)
- God is like creeks and streams flowing to a river into a lake then to an ocean.
- God is like the root of a tree and Jesus the tree trunk. Then on to branches and leaves.
- Jesus is the youngest Aeon? (aka “Word” / logos)

Pg. 73-75 – Jesus’s first attempt at creation resulted in shadows, phantoms, and illusions of the image of the Father. *(Nephilim?) Who teach their offspring to be fighters, warriors, troublemakers, rebels, disobedient “folks” who love to dominate.

Formed conquest into reality. For glory.

- The Word divided but produced shadows. Produced “ignorance of oneself”.
- Jesus first notices the difference between himself and the perfection of God the Father.
- God first, then Jesus. Jesus points back to God.
- Those beings from the “presumptuous thought” were imitations of God greatness/Fullness.
- Jesus was “unable, unstable, or destabilized” to bring their love of disturbance to an end. Nor could he destroy it. God destroyed it for Jesus in the flood.
- Jesus created small feeble angles and humans, that were infected with the same sickness, inadequacy as Jesus.

*(Jesus creates the first Aeon. (time/age) then Sophia (demiurge) then the energetic, spiritual “church” then matter and biology.

*(Jesus was “arrogant” when he mistakenly thought he could create like God. Jesus made Adam, but mistakenly imperfect. Safely introduces evil into God’s Fullness. Blame Jesus’s mistake of “arrogance”, not a devil or serpent.)

***(JESUS STARTED IT SO JESUS IS GOING TO FIX IT!)**

*(The first human creations were destroyed by a power other than Jesus.)

*(Western Valentinism rewrites the Genesis story. The Eastern Valentinism accepts Jewish Tanakh (Old Testament) (Mikra in Hebrew includes the first five (5) books (Torah) + Nev’im and Ketuvim.)

*(Talmud = “Study” or “Learning” (Mishnah 200 C.E.), (Gemara 500 CE.).)

*(Because our material defect is Jesus’s fault, we are freed from the shame of our defect, sin, worldly appetites, the things that make material biology different from divine spiritual energy.)

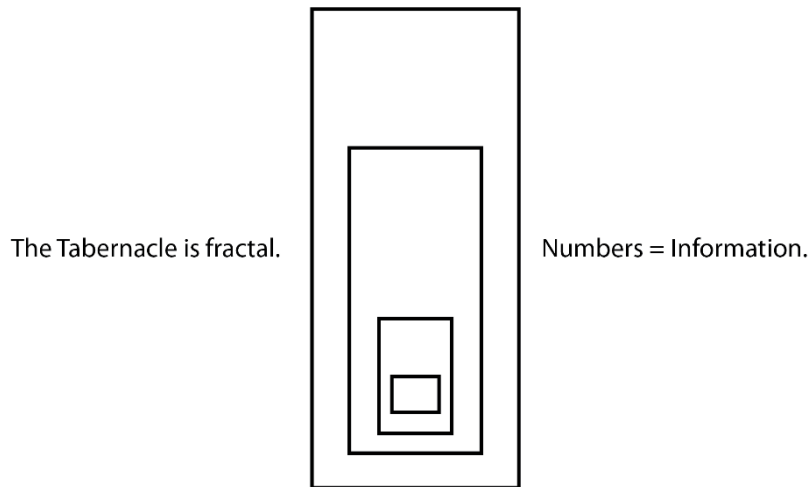

The Nag Hammadi Scriptures and Rodin's Glyph

- Jayson S. Warnock -

Jesus first action created:

1. Holy Spirit
2. Duality
3. Time
4. The energetic geometry for the material "Church".

"As above, so below"

Time = Aeons / Pleroma (all Aeons combined)

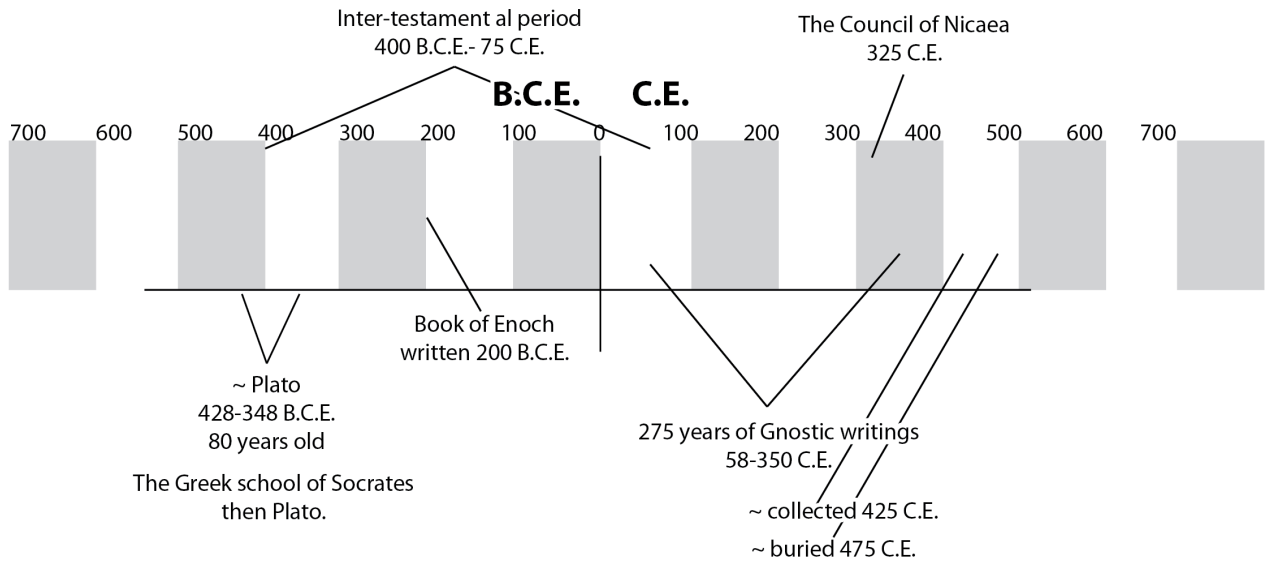

- *(a seed knows, ahead of bloom, what it will be, and what it will need from the environment. The seed grows in relationship with the environment, the material environment, modeled after the upper, energetic, spiritual environment (Pleroma, Tabernacle, or Church)
- *(Jesus creates the Tabernacle correctly. The spiritual, energetic heavens. (Fractals?))
- *(Jesus is born material and gendered male (masculine attribute of Father phraseology).
- *(Jesus is raised Jewish (Monotheistic).)

The Nag Hammadi Scriptures and Rodin's Glyph

- Jayson S. Warnock -

Gnosticism = Greek word = Knowledge
Gnostic writing is influenced by the Greeks

The back cover of the book describes the a fourth century C.E. text as "ancient".

Mithras was practiced among the Roman soldiers because of the "sacrificial son" plot of the belief. (Warrior's code.)

Mithraism, also known as the **Mithraic mysteries** or the **Cult of Mithras**, was a [Roman mystery religion](#) centered on the god Mithras. Although inspired by [Iranian](#) worship of the [Zoroastrian divinity \(yazata\) Mithra](#), the Roman Mithras is linked to a new and distinctive imagery, with the level of continuity between Persian and Greco-Roman practice debated.^[a] The mysteries were popular among the [Imperial Roman army](#) from about the 1st to the 4th-century [CE](#).^[2]

- Pagan Rome's occupation Israel lasted for roughly 400 years followed by Christian Rome's and then Constantinople's occupation for 300 years.

The first 100 years from Pompey's conquest in 63 B.C.E. to the end of Pontius Pilate's governorship in 36 C.E.

- The earliest written book of the New Testament is "The Book of Mark" and was written circa 70 C.E.

*(Faith based belief. No relics, or source writings.)

*(out of the 27 books of The New Testament, 13 books are attributed to Paul, and parallel Rome's conversion to Christianity. Paul used to KILL Christians, now he accepts Jesus.)

*(In the New Testament's "The Gospel of John", the author John must have been aware of Gnostic writing, due to his insistent view that Jesus WAS God!)

Pg. 76 – When we remember God, that causes God to remember you.
When we acknowledge God, that caused God to acknowledge you.

The Nag Hammadi Scriptures and Rodin's Glyph

- Jayson S. Warnock -

When we accept God, that causes God to accept you too! *(but not unconditional?)

- Birth gave people a power over God. – The first birthers. *(free-will?)

Pg. 77 – Jesus waits.

Pg. 78 – Physical Jesus, born of God and word (spiritual energy).

Jesus revealed himself as a “flash” of lightning. (See pg. 99)

*(God made the **First Era/Aeon**. God made the First Aeon imperfect on purpose. God wanted the First Aeon to **GROW** to perfection.)

*(The **Second Era/Aeon** produced Jesus in an incomplete way.

*(The Third Era/Aeon Jesus is purified and revealed?)

Pg. 81 – “Sickness” in humanity is femaleness (opposites, First material duality.)

Pg. 83 – “Lower orders”

Pg. 85 – God created Holy Spirit. Jesus controls Holy Spirit *(demiurge?)

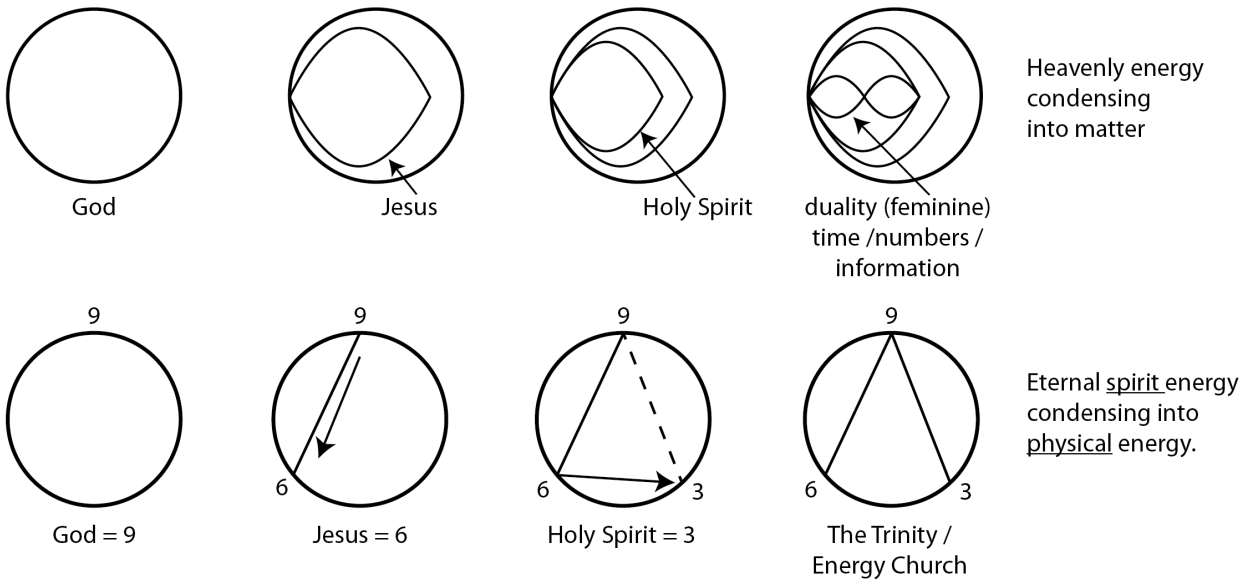

Pg. 86 – Part 2 *(The text shifts to Jewish imagery from the Tanakh?) Serpent in the Garden of Paradise / fruit tree of knowledge.)

Pg. 97 – *(God allows evil as an advertisement for the good of God?)

Pg. 98 – *(Plato's assertion that good is better than evil?)

Pg.99 – Jesus' light appeared in the form of lightning. (See pg. 78)

Both describe Spiritual Energy Condensing into Physical Energy

Fibonacci Sequence

Fibonacci #1 - God is timeless and eternal without beginning or end.

Fibonacci #1 - God created Jesus.

Fibonacci #2 - Jesus created Holy Spirit. A perfect energy creation. A tool for Jesus.

Fibonacci #3. - God - Jesus - Holy Spirit form a Trinity that creates spirit energy into physical energy.

Form the energetic church. Tabernacle is fractal. Geometric.

Pg. 103 - #6 – The Secret Book of John

Pg. 105 – Yaldabaoth's inclusion absolves, God and now Jesus by putting the blame of creating imperfection (matter/evil) on yet another player. *(another scapegoat for evil)

- First Jesus is to blame for creating without God's assistance/consent.
- Then Sophia, the second, feminine Aeon is to blame for creating without God's assistance/consent.
- Now Yaldabaoth is to blame for creating without God's assistance/consent.
- * (Theodicy in action. Theodicy also in Sumerian tales of Enlil and Enki)
- Free will was involved with Jesus attempt at creation without God's consent.
- Free will was involved with Sophia's attempt at creation without God's consent.
- Free will was involved with Yaldabaoth's attempt at creation without God's consent.

* (The First Aeon was capable of perfection. It was energetic, evolving time, and geometry.

The heavenly, spiritual, energetic Tabernacle / Church. The fractal beginning of information/numbers.

The First Aeon easily matured/perfected itself to see the Father. And birth the Savior Jesus.

* (Logic Twist: "I didn't (forget) to take out the trash, the trash men (love) me so much that they showed-up early." The main character is now perceived as (good) and the trash men are now to blame (evil).)

- Jayson S. Warnock -

*(Early attempts at scientific method. Understanding the whole, by understanding the parts. Endless lists? Plutonic science? Aristotle?)

Pg. 115 – Sophia's first creation was Yaldabaoth. (Sophia is feminine energy from the Second Aeon.)

- Yaldabaoth is twisted and misshapen because it was created without God's consent. A snake with a lion's head. Lightning flashing eyes. *(Old Testament God? Elohim? Anunnaki?)

Pg. 119 – Yaldabaoth creates humans twisted and misshapen because they were created without God's consent.

Pg. 126 – dumbing down of Adam.

Pg. 127 – Eagle.

Eve created Cain (Bear / Elohim?) and Able (Cat / Yahweh?). One is just, the other is not.

Pg. 133 - #7 – The Gospel of Thomas w/ The Greek Gospel of Thomas

Judas Thomas, Jesus's twin brother.

Pg. 134 - "Didymos" is Greek for "twin".

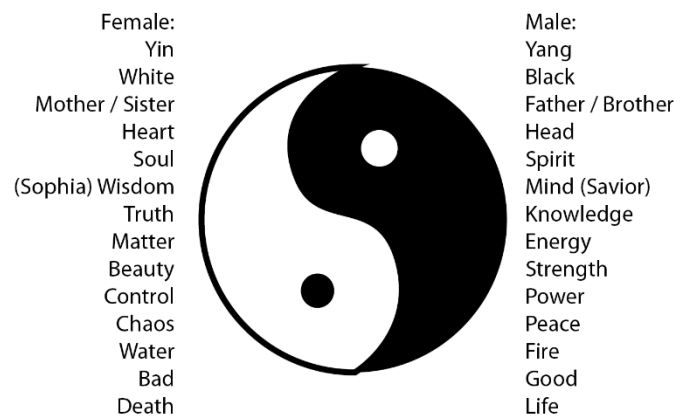

Pg. 136 – Platonic influence. Greek. Delphi. "Know thy Self"

Judas dies / hangs / spills money = Jesus EVIL twin.

*(Spiritual information is refined / revealed throughout the ages / Aeons.

Since the deluge, spiritual information has been passed down to the Akkadians, then Sumerians, Babylonians, Egyptians, Judaism, Gnosticism, and now Christianity.)

Physical Reality Manifesting with the First Material Duality

Pg. 142 – Spirit and Flesh (Soul) mingle at death.

- Spirit = Inside *(energy)
- Flesh = Outside *(Soul = matter + spirit)

Our Soul is our personality. Energetic but based in matter. We ALL share an energetic aspect with God, because God is ALL.

*(We grow and learn to purify the Flesh (Soul) during our lifetime. (Refine our soul energy) so that at

The Nag Hammadi Scriptures and Rodin's Glyph

- Jayson S. Warnock -

death, when our Flesh (body) dies, "goes inside", the Flesh (Soul) influences the shape of our, now outer Spirit. The Flesh (Soul) needs to be as "purified" *(of material attachments and emotional baggage).

Pg. 143 –New Testament Matthe 3:18 says that Jesus said, "For where two or three gather in my name, there am I with them."

Here it says it is a phrase meaning "Where there are two (2) (deities being compared, discussed), I will be there."

*(Bible mistranslation, appropriation, or borrow?)

Pg. 146 – Death

Pg. 147 – Whole = Holy

Pg. 148 – Workers to collect produce *(a trend to have workers to do work for a leader.)

Pg. 153 - *(Feels tacked on, out of place. A later addition? Right at the end too!?!)

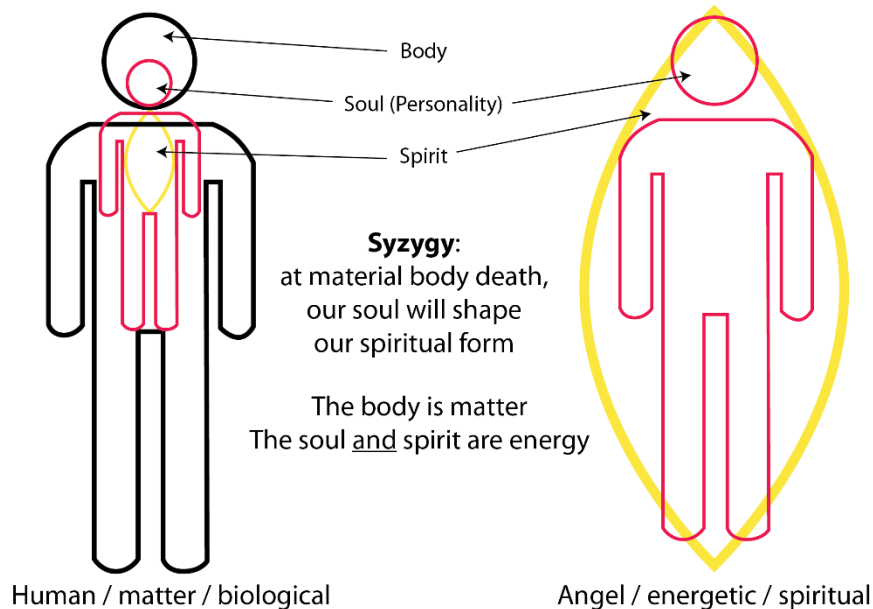

Pg. 157 - #8 – The Gospel of Philip

Written in 100-250 C.E. Spiral narrative to the text

- "Syzygy" is, after death of the physical (matter) body, the Soul (energy) and Spirit (energy) flip.
- We will become a spirit (energy) outer projection from our inner souls (energetic personality) final form.

*(Should be free from fear. Be child-like. Children's spirit is brightest because they were still young and fearless. There are no monsters in Heaven.)

*(Evil came from God by either, Jesus (Gnostic), Sophia (Greek), Yaldabaoth (Gnostic), Nephilim, or Adam and Eve (Jewish).)

*(After Barbleo and the First Perfect Aeon *(the creation of time?) the Second Aeon twists into infinite, but dualistic matter. Sophia. She didn’t create herself. Jesus created the Second Aeon. Pairs with the idea that Jesus started the defect in humans, so he will correct it.)

*(Sethian gnosis and Jewish amalgam? Where did evil come from? – God and Jesus are pure!?!)

Pg. 193 – Samael is the leader of the Archons. Adam and Eve were only souls (personalities) without spirit. After eating from the Tree of Knowledge of Good and Evil, they became aware of their lack of spirit. They felt naked, ashamed, and inadequate.

Pg. 194 – Adam and Eve produce Cain, Able, Seth and Norea.

Pg. 195 – Angel Sabaoth / Eleleth (a general in the angelic ranks) rebels against the Elohim and warns Noah of the flood. *(a remnant of material evil stayed with humanity through Noah’s biology. Noah was NOT born sinless, like Jesus.)

Written in 150-200 C.E.

- Greek word for "twin" is Didymos / Didumos
- Jude Thomas
- Recorded by Mathaias

*(Why is it always written by someone else? Avoids being accused of heresy, sorcery, witchcraft, paganism, or devil worship. Hides the obvious fact that information came from the writers, not the people they are quoting. This adds authority without accountability/responsibility?)

Pg. 237 – The writing may be 3/5 "The Book of Thomas" and 2/5 "Hidden Sayings that the Savior Spoke".

Pg. 239 – Greek, Plutonic, "Know Yourself".

Spirit Energy "Inverting" Into the Material World

Spirit from "Above" inverts into matter "Below".
 We experience an "inversion" of God's energetic will
 when it is inverted to matter.
 We did not invent the energy, nor do we control the process.
 We can relieve ourself of the "inverted"
 misunderstandings we have of God's energetic truth.
 This is God's will, not our own.

*(note there may be more or fewer levels depending
 on which gnostic school is describing it.)

Perfect Spirit energy transforming into living matter.

Pg. 267 – Vowel Hymn – Yesseus Mazareus Yessedekus

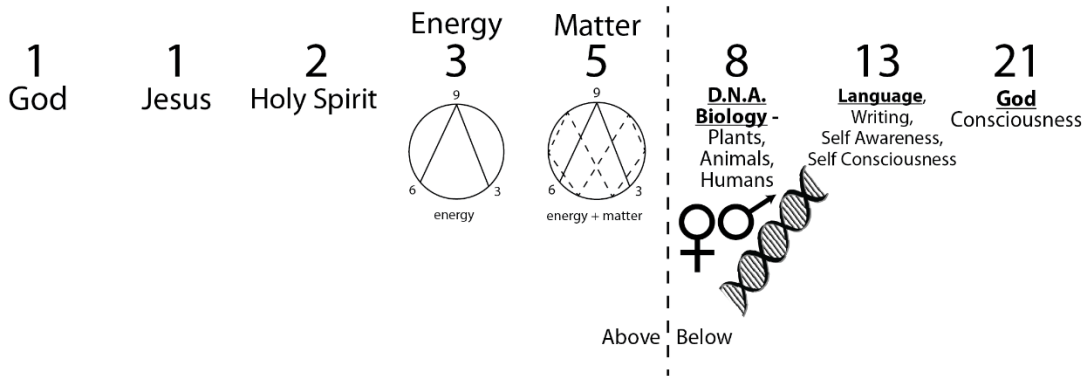

Pg. 271 - #14 – Euginostos the Blessed

Pg. 278 – Jesus (Mind) and Sophia (Wisdom?) emerge from the All Father, a single being, androgenous with two (2) names.

Fibonacci Sequence in Energy to Matter Formation and Parallels with Rodin's Glyph

*(The diagram above shows:

#1 – God – the Father. Singular. Timeless, until He desired a Son.

#1 – Jesus – A perfect representation of God. Timeless as God, be not as powerful.

#2 – Jesus creates Holy Spirit, a perfect, spirit energy, tool to help Jesus create. An androgenous pair. Genderless. Pre-male / female split. First energy duality.

#3 – The Trinity forms. Spirit energy condenses into physical energy. Forms the plan for the energetic Church/Tabernacle. Geometry. (9,6,3 in Rodin's Glyph.)

* (9 expands and contracts into 6 and 3, instead of dividing and reforming? Always entangled?)

#5 – Duality of matter. (1,2,4,5,7,8 in Rodin's Glyph).

- Creates a lazy "8" infinity symbol. Implies matter is infinite like energy
- Time, Numbers, Information

----- Above / Below -----

#8 – D.N.A. - Biology – Plants, Animals, Humans

(with 6 and 7 creating the elements + space/time before it.)

#13 – Language (Fox P2 gene), Self-awareness, Self-Consciousness.

#21 – God consciousness

*(Seems to all keep lining-up with Rodin's Glyph.)

*(Were the codices designed as the next level of information to be leaked to masses over time? Leaked by an unseen cabal?)

*(The Nag Hammadi Scriptures were discovered, so again, no one can be pointed to as the authors?)

*(The texts describe, possibly forbidden, occult, knowledge from a previous era.)

*(This information could have threatened the Archons of their time.)

*(The ideas associated with the Nag Hammadi Scriptures are, androgyny, math, fractals, energy, matter, biology, quantum entanglement? They are all currently being investigated in our time, now, since the Nag Hammadi's discovery in 1945.)

*(The sequence of the tractates, in this publication, is out of order from the original Codexis.)

*(Was the order of the tractates in this book rearranged deliberately to highlight information message of math and science?)

*(The order of the tractates #1-14 reveal harmonies, energy and information that point to math.

(Nested fractality? Simulation theory?)

*(Rodin's Glyph may describe the smallest quanta of energy/matter, every discovered.)

*(Same as the biological/wisdom and experience difference between a human Father and Son?)

- The one who conceives ALL, and the one conceiving ALL.

Pg. 280 – Spiritual power as time. $72 \times 5 = 360$

- 360 powers / firmaments. Savior / Sophia

- Anything named, was created, like Angels and Aeons. God has no name!

*(God, The Father, should have no proper, personal name. It would be disrespectful implying power and control over God.

*(Was time made for humans? The weeks, months, days, and years? To measure our maturation?)

*(Notable adjectives repeated include:

Thoughts / reflections / considerations / reasoned statements / wills / words.

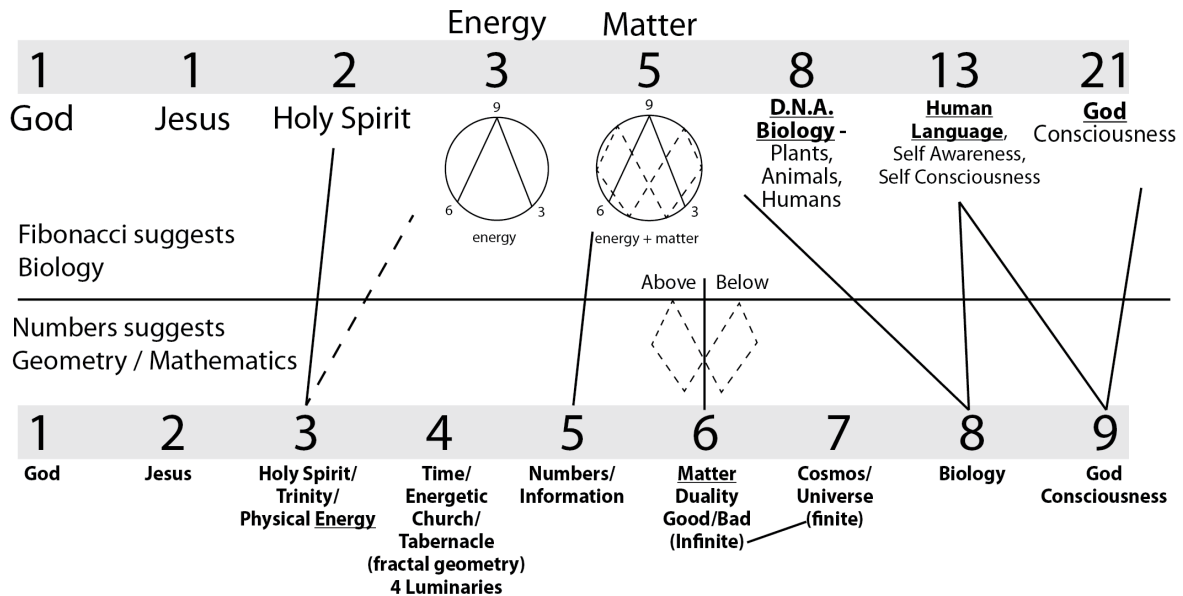

(Masculine thinking. Reason, logic.)

Created / fashioned / formed / named.

Mind (consciousness) / Insight / teach / council / powers.

1 over 1, over 10, over 100, over 1000, over 10,000.)

Energy to Matter Formation Parallels: Fibonacci Sequence, Numeric Sequence, and Rodin's Glyph

Fibonacci strongly suggests

Jesus and Holy Spirit were the first spiritual (energetic) duality - Fibonacci #2, before gender, androgenous.

Which could help clarify the various Theodicy arguments made by the different Gnostic schools.

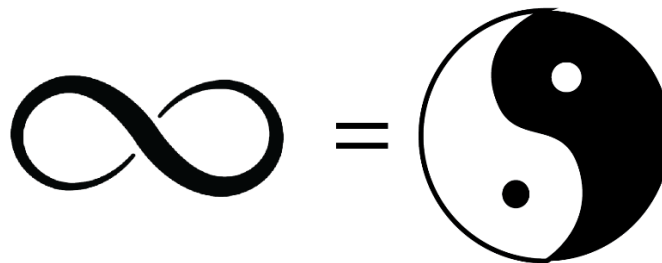

The Nag Hammadi Scriptures and Rodin's Glyph

- Jayson S. Warnock -

Written in 250 C.E.

Pg. 328 - Another attempt at Theodicy. The presumptuous, flawed creation story is now transferred to Sophia and her daughter Achamoth (which means presumptuous). Moving Theodicy another step further from God and Jesus and feminizes it. Achamoth is a female begot of another female.

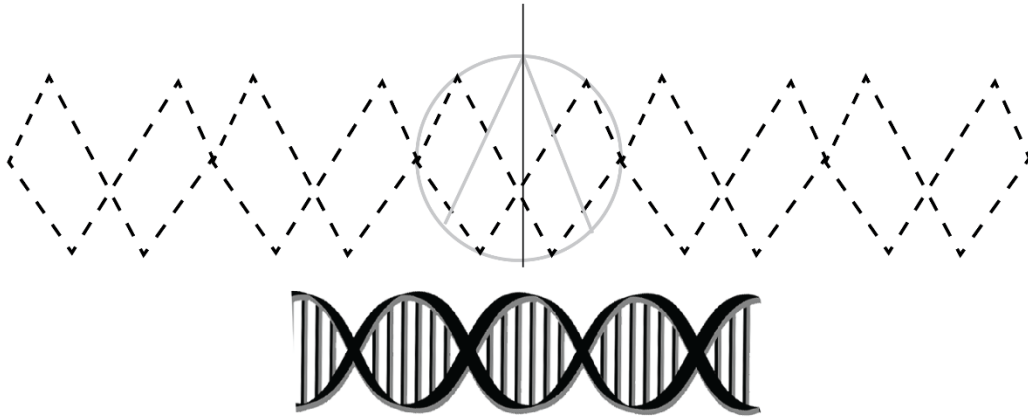

• Yaldabaoth makes Adam. *(a lesser form of the Sophia and Achamoth story. Fractal)

The Barbelo Aeon is described as:

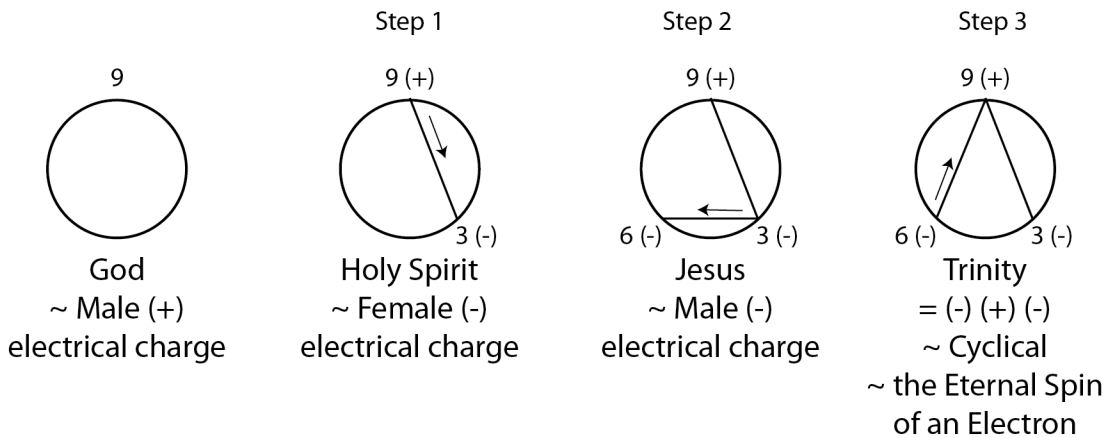

- A virgin, feminine, Meirothea, First Thought and Womb of Creation.
- Represented as the number three (3) in Rodin's Glyph.

Pg. 723 - Footnote 31: Similar names epithets for the divine are used in the "Secret Book of John II"

Mirothea (or Meirothea) may be a feminization of "divine anointed one" (muro-theos) or "divine destiny" (meiro-theos) or "divine part" (meros, derived from meiomai). Here and in *Three Forms of First Thought* Mirothera is a feminine cognomen for Barbel. In *Holy Book of the Great Invisible Spirit III*, "Three Steles of Seth" and "Zostrianos", Mirothea is the mother of the heavenly Adam Pigeradamas. In *Melchizedek* one also finds Meirocheirothetos (perhaps "one anointed with myrrh") mentioned together with Pigeradamas.

*(The order of creation in this version starts with the creation of Holy Spirit, feminine, is the first energy duality with God.)

Order of Creation - with Holy Spirit Before Jesus Paralled to Rodin's Glyph

The feminine 3(-) is a fractal inversion of masculine God 9 (+).

- The root of why the feminine is equated with evil.

- **Redemption** can only happen when she realizes /manifests Jesus 6 (-).
- And through Jesus 6 (-), make her way back to God 9 (+).

- * (Is this story a way to preserve science for future generations to find?) "*3 Forms of First Thought*".

*(The number three (3) is a perfect fractal of number nine (9). Suggests feminine biological reproduction quality. Number six (6) is (inverted symbol) more like God (9), just a little less powerful.

Pg. 724 – *(added later? Out of place.)

*(four (4) luminaries as four (4) Aeons and the spirit beings that are worshipped in each Aeon.

*(Leading to the truest form of light – Jesus/God.)

Pg. 725 – "Sakla" Yaldabaoth is to blame

Pg. 726 – "Children of Light" mentioned again. Here and on pg.727,728 and 734.

Pg. 727 – The section on "*The First Mystery: Nullification of the Lower Powers*" is well written.

Pg. 732 – Protennoia / aka Jesus, comes first as God / Voice.

Then a second time comes as Speech / Feminine.

Third as "the Word", hidden inside and among the people.

Pg. 743 – "Mind" is emphasized in the triad, Spirit, Soul, Mind

#1 – Soul Ascension

#2 – Desire (body = garment)

#3 – Ignorance – Not judged yet. Matter returning / converting to energy.

Pg. 744 – Seven (7) forms/powers of wrath;

1. Darkness

2. Desire

3. Ignorance

4. Zeal for Death

5. Kingdom of Flesh

6. Foolish wisdom (the lie) of the flesh

7. Wrath

Pg. 745 – *(Levi says the strong, judgmental words to Peter, instead what Mary could have and should have said to Peter.)

• The false trail of seven (7) forms. First is Darkness, to hid / occlude. To incite the next form, Desire.

*(see page 742.)

Pg. 746 – The Greek copy seems consistent up to the missing information about the seven (7) forms of ascension.

A summary of the Nag Hammadi Scriptures four (4) gnostic schools:

- Thomas Christianity
- The Sethian School of Gnostic Thought
- The Valentinian School of Gnostic Thought
- Hermetic Religion

Pg. 779 – Thomas Christianity (250 A.D.)

Started in Syria then moved to Egypt where it inspired the Valentinian School of Gnostic Thought.

- "twin" in Greek = Didymos – Judas Thomas / Didymos Judas Thomas / Brother James, Jesus's brother, so also a brother of Jesus. Twin brother of Jesus, physically

Pg. 780 - "Doubting Thomas" Jesus's spiritual counterpart. Jesus as Thomas's heavenly alter ego.
The kingdom is within you. Plato's influence = "Know Yourself"

Pg. 783 – Mani and Manichaeism - a dualistic religious system with Christian, Gnostic, and pagan elements, founded in Persia in the 3rd century by Manes (c. 216– c. 276). The system was based on a supposed primeval conflict between light and darkness. It spread widely in the Roman Empire and in Asia and survived in eastern Turkestan (Xinjiang) until the 13th century.

Pg. 784 – The Sethian School of Gnostic Thought

The third son of Adam was perfect, like Jesus, and called Seth.

Pg. 785-86 - Trinity = Father (Invisible Spirit), Mother (Barbelo), and Child (Autogenes)

- Four Luminaries (Marmozel, Oroiael, Daveithai and Eleleth who is responsible for creating Sophia. Sophia produced the flawed material (matter) world and evil. Yaldabaoth, Sakla/Skalas or Samael who tried to destroy mankind with floods and fire. Archons suppress our knowledge of the divine spirit in us. Thwarted by Sophia saving interventions as the spiritual Eve = "Epinoia" a.k.a - Barbelo "First thought" "Protennoia" "Pronoia"
- Jewish based thought.
- God (invisible Spirit) – Barbelo (God's self-knowledge) – Aeons (spirit creatures?) – Sophia – Yaldabaoth.
- Sophia redeems herself by giving Adam's son Seth, perfection like Jesus.
- Baptism helps awaken humanity's potential self-awareness of its essential divinity.
- Vertical and horizontal path to gnosis.

Pg. 790 – The Valentinian School of Gnostic Thought

produced the "Tripartite Tractate"

Pg. 791-92 – Spirit = energy / Aeon's = spiritual entities, "members of the All" collectively called the "Pleroma" (Fullness) *(are they angles, heavenly council? Sethians saw Aeon's as time periods?)

- The Father's self-knowledge produces the Son, who is Mind.
An unfolding of the self-reflective, divine essence.
- The Aeon, Sophia splits in two. Because she tried to create without the Fathers participation, consent, Fullness.
- Half of Sophia stays in heaven (Spirit energy), the other half solidifies into matter. (Matter and Energy)
- Pleroma hears Sophia's repentance and produces a perfect Savior. The product of all the Aeon's
- Sophia's matter, soul, and spirit go into humans. The inner spirit needs to be awakened.
- Baptism to reunite with the Pleroma. "Bridal Chamber" "the restoration" = *apokatastasis*
Performing baptism as a ritual act makes Valentinism a religion. (pg. 792)
- Sophia lives with her spiritual children in the Ogdoad (Eight), or the Middle, located between the cosmos (the universe of matter and energy) and the Pleroma (Heaven).
- The Savior works with Sophia co-creating. They use the "Demiurge" as an unwitting tool. Demiurge tried to make humans and again produced a flawed creature, lacking spirit until Sophia placed spirit secretly, in Adam and his progeny.
- The Savior descends to Earth as Jesus.

- The Earth and the seven (7) planetary spheres above it are made from matter and (mind) with (mind) Archons ruling the spheres.

Pg. 792 – Sophia is acting as the Greek Prometheus or Jewish version of the Serpent in the garden giving knowledge to humans.

- Issues of divine oneness and plurality were reconciled by the theory of divine emanation and restoration.

Pg. 793 – Valentinism split in two (2) branches. Western or “Italian” branch and an Eastern branch.

- They dispute if Jesus came as a spiritual or psychical body (thought/mind) Church the Heavenly Seed of Sophia, or congregation of angles) that separated at his death. His material existence catalyzed the spiritual church on Earth for us to participate in. Jesus's redemption took place at his baptism.
- Western Valentinism thinks Jesus had a psychical (thought/mind) body. Jesus was nature itself and eternal. They see the Pleroma as thirty (30) Aeons, coupled in pairs called “syzygies”
- Eastern Valentinism thinks Jesus had a spiritual body and he sacrificed his material form. They follow the “Tripartite Tractate” that original Aeons were fractally nested in the Father, as in a womb. Primitive version of the Pleroma unfolding into existence.
- Some are born spiritual, and others learn. Some humans are **AUTOMATICLY** saved by virtue of their spiritual nature.

Pg. 794 – “...the separation of spirit from matter is the main motif of the myth of the fall of Sophia,...”

- * (Sophia's story is important for being the first appearance of matter. And how the separation of matter from energy took place, and who was responsible.)

Pg. 795 – Hermetic Religion

- The least “gnostic” of the scriptures.
- Greeks equated Hermes (smart) with Egyptian god Thoth (hieroglyphics)
- Greek “Megas, megas, megistos” (abridged into “Trismegas” = “Thrice Great”, while “Trismegistos” = “Thrice Greatest”) equals Egyptian “Great, great, great”.
- Hermes-Thoth (Great Ancestor), Hermes-Agathodemon (Dad), Hermes-Trismegistus (Son), Hermes-Tat (Grandson)
- Hermes-Trismegistus (Son) translated into Greek, and handed over the hieroglyphic writings, carved on steles, before the flood by Hermes-Thoth (Great Ancestor), to his son Hermes-Tat.
- Hermes-Trismegistus authored the original Egyptian writings that were copied into Greek in 100-300 C.E.. The topics of the writings include astrology, alchemy, magical recipes, and philosophical treatises.

Pg. 796 – Egypt is the mother of all cultures and has withstood previous world catastrophes.

- Hermetic, Egyptian writings came first. They sound like Greek and Jewish writings because the Greeks and the Jews barrowed from this earlier Hermetic source.
- Ancient Egyptian Boof of Thoth – a Demotic teaching (not influenced by Greek Platonic thinking.)
- Hermeticism is a spiritual way, not a philosophical system.

Pg. 797 – Non-Gnostic Hermetic writings differ. They constitute the beginning of the quest for God. Those searching for the divine first have to become aware of his invisible presence through his invisible creatures.

- Devotees are led to the awareness that God is so far beyond what is perceptible, the world seems to be interposed as a screen between the human mind and the source of all beings.
- Included various syncretism systems.
- Hermeticism (first) leads to gnosis (later).

- Jayson S. Warnock -

Pg. 798 – Hermes used magical words and vowels to command the heavenly spheres.

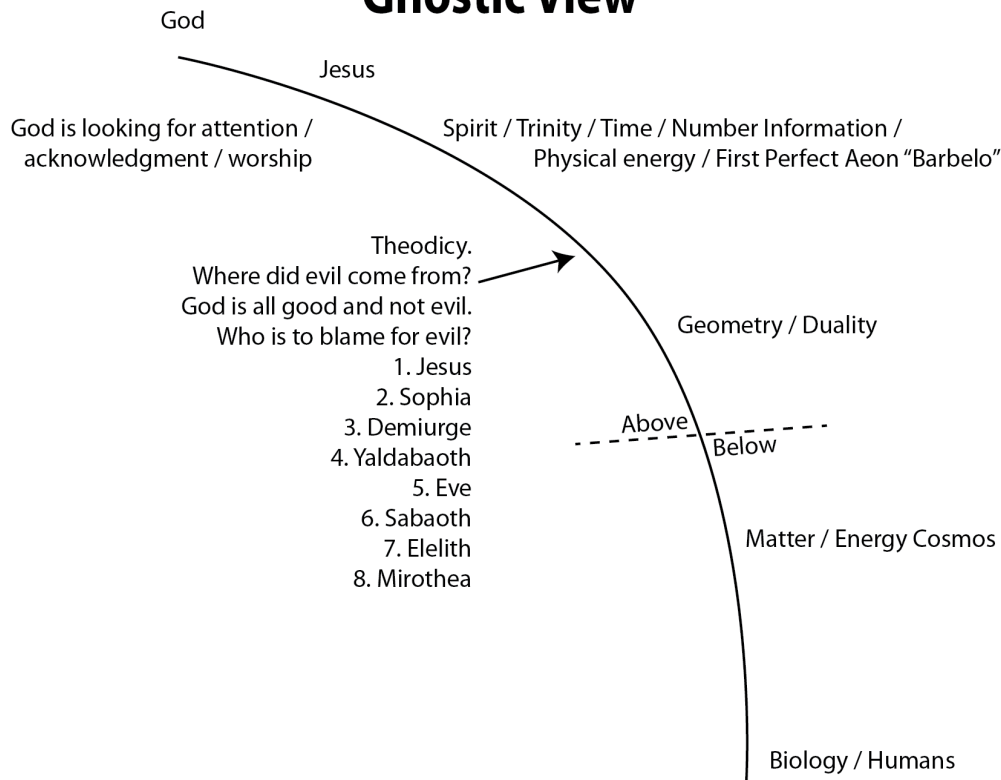

- “It would certainly be worthwhile...to compare the Hermetic and the Sethian paths of spirituality.”

Overview

Gnostic Theodicy blames Jesus, Sophia or her son Yaldabaoth for producing evil material into a perfect spirit energy world.

God = Infinite

Spirit / Energy = Infinite, cyclical

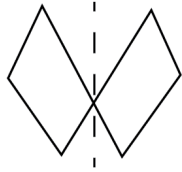

"Lazy 8" = Infinite, cyclical
Time / Geometry

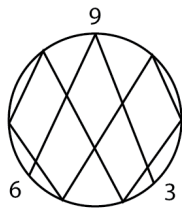

+ Numbers / Information / Math =

Above Energy is curved 

Below Matter is angular 

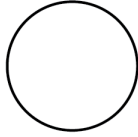

Matter = Infinite, cyclical, spiraling
~ Matter is structured by information/geometry
~ Six numbers create our material cosmos
1 - 2 - 4 - 5 - 7 - 8
~Favors six sided hexagons and spirals

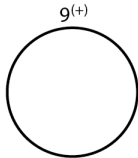

God + energy + matter
Biological life cycles (dying) are a fractal pattern of the (energy into matter process).
Includes re-birth/reincarnation

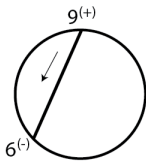

Overview

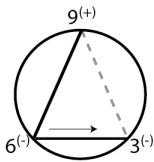

All / God - eternal

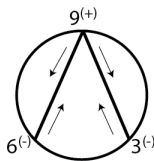

9 = God (+)
the (+) = Positive electrical charge

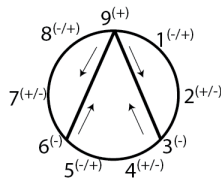

6 = Jesus (-) Eternal but not as powerful as God. A reflection/copy of God.
~ As different from God as 2-D is to 3-D.
~ Jesus is described as having an "arrogance" that is hard to imagine.
the (-) = Negative electrical charge

Jesus creates 3 (-) Holy Spirit as a reflection of God,
(but now a copy from a copy getting further away from God).
~ The Trinity = Geometry (3-dimensions)
God - Savior - Sophia
Father - Mother - Child
Mind - Voice - Word
~ Sophia = Female / Wisdom / Holy Spirit

The First Aeon
~ Time
~ First energy duality (male/female = BOTH negative charged)
~ Expansion and Contraction pump - Cyclical - Heart Beat
~ Physical Energy (union creates = zero point energy + entanglement)
~ Energetic Church (fractal geometry)

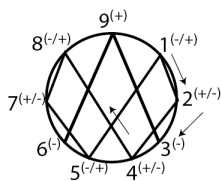

The Second Aeon
~ Numbers = Information
~ Sophia or Yaldabaoth creates matter (shadows/phantoms)

The Third Aeon
~ Math
~ Material Cosmos
~ Biology (Plants, Animals and Humans)

Physical Energy Creation in Rodin's Glyph Paralled with Gnostic Order of Creation

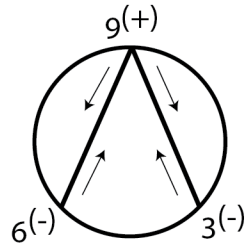

~ God 9(+) emits positive energy until it travels far enough away to invert charge (-) and magnetically contract back into 9(+)
9 doesn't divide into two whole numbers.
Note the placement of (5) and (4) in Rodin's Glyph, between the (6) and (3).

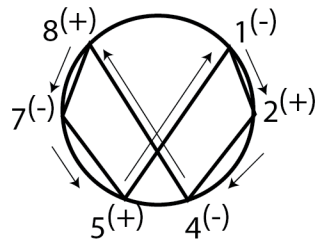

- ~ God is always positive (+).
- ~ It is God's perfect (+) emanation that inverts and produced negativity (-).
- ~ In this model, Jesus is 6(-) and Holy Spirit 3(-).
- ~ 6(-) and 3(-) always return to God and are always forgiven.
- ~ Repeat pulse.

Could be the key to understanding Theodicy.
